

Exams Guidelines and Standards

General Guidelines for Writing Examinations:

- Examinations are based on the curriculum guide and the recommended resource materials.
- Examinations are 2 hours (for final exams) and 1.5 hour (for midterm exams).
- Students should be prepared to use the full time allotted to complete the examination and to check their work.
- Students should look over the entire examination before beginning to answer any of the questions. This will give them an idea of the length of the examination.
